STORY OF THE WAR.

Constable Manning Gives the First Reliable Account.

THE INDIANS DEFIED THE LAW.

They Slaughtered Elk and Deer for the Hides Alone—Resisted Arrest and Tried to Ambush the Constable and His Posse.

Jackson's Hole, Wyo., July 31.—(By Courier to Market Lake, Idaho, Aug. 1.)—Constable Manning came in to-day from the mountains. His story is the first accurate one of the arrest and killing of the Indians, the cause of the trouble. He says:

"On June 7, information having been received that Indians were killing game in violation of the statutes of the State of Wyoming, a warrant was issued for the arrest of the Shoshone and Bannock Indians unidentified as to names. Constable William Manning and 12 deputies went into the mountains to serve the warrants. He found one Indian named George on the divide close to the headwaters of Gros Ventre. The Indian had evidently attempted to conceal his camp. He was brought into court, tried and found guilty of violating the statutes referred to, and was fined $15. In his possession 30 raw green hides were found. The fine was paid by John Carns, a squaw man living in Jackson's Hole, and the hides confiscated.

"On June 24," said Manning, "a second information was issued and a warrant of similar character and covering substantially the same facts as first, was issued. Constable Manning with two deputies proceeded to Fall River basin, Wyo., to make arrests. At the head of Cache creek and Granite creek trail on the top of the divide the officers heard shooting, and located Indians hunting, one being engaged in skinning an elk. There were seven in the party, and on the officers approach the Indians got together and levelled their guns at the men. They then asked their business, and being told, signalled for one man to come to them to parley. The warrant was read to them, they all talking English. On the conclusion of its reading they declared that they would hunt as much as they pleased. They said there was little law in Jackson's Hole, and that little they defied. They further said they would fight before they would submit to arrest. They were told the soldiers would be sent for, and they expressed defiance for them, and asserted that they would kill everybody in Jackson's Hole if interfered with. Being too heavy in numbers for the white men; no further attempts were made to arrest them. After this talk was over we watched the Indians and observed that they took nothing from the elks' carcasses but the hides and brains, leaving the rest to rot. There were partly removed hides and about five carcasses that were where they were skinning. The next day these same Indians, together with about 25 others, were seen in camp at Fall River basin, there being 11 lodges. I went through the camp and estimated that the band had about 350 fresh hides. The Indians laughed at me and some made similar threats to those uttered the day before. We then left. Later we met an Indian family with about 15 hides and less than 40 pounds of meat. Expecting to be followed by the others, we did not attempt to arrest this family, but told the buck of the law and advised him to return to the agency, which he agreed to do. The next day our party of constables found unmistakable signs that the original band of Indians had lain in wait for us.

"The next information for illegal hunting was filed July 2 and a warrant was issued. Constable Manning with 36 deputies went to Gros Ventre river to serve it."

"We found," said Manning, taking up the story, "five lodges of Indians at the mouth of Rock creek. The camp was surprised at 9 o'clock in the morning and the Indians were arrested. Forty or fifty fresh elk hides were taken with the Indians. They were brought into court and six pleaded guilty and were fined $75 and costs each, the gross fine being about $1,400. Two being blind, were discharged. While we were bringing in the prisoners, we found we were followed by a rescuing party, but we eluded it. However, the Indians escaped in the night, the sentinel falling asleep.

"A day or two after this trial, John Cairns and a prospector named Schell, coming in, said that there were between 200 and 300 Indians in the Fall River basin, and that they had declared their intention of making trouble for the people of Jackson's Hole. Mr. Carns predicted trouble, and four or five days later he moved his family entirely out of Jackson's Hole, and into the State of Idaho. He said he had further grounds for believing the Bannocks would give trouble, from the fact that he had received a letter from an Indian at the Fort Hall reservation saying that the Bannocks were going to cause trouble in this vicinity this summer.

"An information was filed July 10 and a warrant issued charging unidentified Indians with illegally killing game. Constable Manning with 20 deputies proceeded to Fall River basin and there surprised a camp and arrested 10 Indians. One Indian got away, leaving nine bucks in our hands. We traveled about 15 miles, being headed for Jackson's Hole. When we got ready to pack up after dinner we noticed that the bucks left off every superfluous article they had been carrying. The squaws loaded themselves with these effects, two of them who had papooses on boards at their backs, took the babies from the boards and strapped them to their laps in front of them on their horses. While this was being done I went to my deputies and warned them that the Indians intended to try to break away. The bucks had been disarmed, and I was satisfied that they had no weapons whatever on their persons. There were 15 guards with the Indians and as a precautionary measure, I placed a guard in the single file column.

"In spite of the fact of the unarmed Indians the men were not instructed not to shoot them. It was understood they were to shoot them to keep them from escaping, and so when all at once they darted off the men shot at them and killed six." This is the story. Afterward came the Indian rumors and preparations for war, but there was nothing really hostile.

Two Jurors for the Durrant Case.

San Francisco, Aug. 1.—Durrant was brought to court this morning on the seat of the prison van and was not compelled to ride inside with the criminals, who were brought to court. After two jurors had been obtained in the persons of Walter S. Brown, a wholesale dry goods merchant, and Charles P. Nathan, also a merchant, the panel was exhausted. Judge Murphy ordered another panel of 300 names, 100 to be returned Monday morning. The case then went over till Monday.

AND STILL ANOTHER.

Terrible Rain in Denver—Cloudburst at Morrison and Salida.

Denver, Aug. 1.—Another terrible rain storm swept this region this evening, and all railroads continue to suffer great losses. An iron bridge over Hardscrabble creek on the Denver and Rio Grande railroad, 20 miles west of Pueblo, was swept away about the time the Atlantic express was due at that point. Trains will be delayed for 12 hours. The Arkansas river has swollen to a raging torrent this evening, and all travel on roads crossing it has been stopped. The Florence and Cripple Creek road has not been able to run trains for several days, and wires are down all along the line. In the city the storm again flooded everything. Cloudbursts at Morrison and Salida threatened much property.

FATAL WYOMING CLOUDBURST.

50 Ton Boulders Torn from the Mountain Side.

Casper, Wyo., Aug. 1.—A terrible cloudburst occurred south of this city on Casper mountain, at the head of Garden creek, last night.

The creek is about seven miles long from mouth to source, and is lined with campers. Near the head of the creek is a summer resort frequented by local picnic parties, and is credited with being one of the most beautiful spots in Central Wyoming.

The first thing the flood reached was the pleasure resort at the head of Garden creek. At this point all the buildings were crushed and swept away and the original site of the hotel at this point is buried beneath debris 20 or more feet deep. From here the water followed the course of the creek and demolished everything in its path. Judging from water marks a volume of water 40 feet high and 30 rods wide must have passed a narrow defile about two miles from the mountain proper.

Without warning this great flood of water in its rush down the side of the mountain found many campers up and down the creek, either sleeping or just about ready to retire for the night. S. Newby and his family had retired for the night when all at once they were surrounded by water and a race for life commenced. Newby says that he heard his wife scream for help; he stabbed for her, but missed, and in the next second he was being carried on by a great rush of water. That was the last he saw of his wife and baby. Newby grabbed the limbs of a floating tree, and after floating about 40 rods was thrown on a bank. Mrs. Newby was found this morning beneath a pile of debris 20 feet high. The boy has not been found.

Near the Newby camp was camped Samuel Harrison, late of Alliance, Neb. Harrison's two children were caught in the flood and carried away by the mad waters. The bodies of the children were recovered this morning.

Some idea of the force of the torrent can be formed from the fact that in the first two miles of its course five lodges of rock are to be found. These lodges are 25 feet high. In the first one are bowlders torn from the mountainside that will weigh 50 tons, which were torn up and carried down the stream. The tents and wagons of all the campers up and down the creek were destroyed, and at least 50 persons escaped with nothing but their sleeping garments. Food and clothing is being sent to the unfortunates by the citizens of Casper.

ROBERT J. BEATEN.

Joe Patchen Downs the Former King of the Turf.

Cleveland, O., Aug. 1.—This has been the banner day in the history of the Glenville track. It was estimated that 15,000 people saw the races.

Robert J., the king of the turf, is the king no longer. The honor was wrested from him by that game black stallion, Joe Patchen, in the most exciting speed contest ever seen on a grand circuit track. It has been said since last season that Joe Patchen was a great racer, but even his warmest admirers did not believe that he was speedy enough to defeat the phenomenal Robert J., when driven by Ed Geers, the "silent man." In the auction pools Robert J. sold for $25 and the field for $5. In the books the Hamlins' world beater was barred. He was supposed to have a cinch on the race, and most of the betting was on Joe Patchen for a place. After the first heat, $1 on the field would have brought $50 on Robert J. The second heat was the beginning of the surprise that was to follow. The favorite and his rival came into the stretch neck and neck, after pacing the middle half in one minute. Jack Curry, who was driving Patchen, seemed to push the black whirlwind under the wire and he won by the shortest kind of a nose in 2:04 1-4. The last two heats were a trifle easier for the black stallion, although he won by less than a length each time. It was the fastest four-heat race ever paced, and the last heat in 2:05 1-4 was the fastest fourth heat ever paced.

Patrick O'Connor rode a mile on a bicycle to beat 2:00. He was paced the first half by a tandem and the second half by a running horse. He finished in 1:55 1-4. He rode the last quarter in :27 1-4.

The 2:17 trot, which was on to-day's card, went over until to-morrow.

The time for the respective heats was: 2:05 1-4, 2:04 1-4, 2:05 and 2:05 1-4.

Senator Stewart's Injured Knee.

Washington, Aug. 1.—Senator William M. Stewart of Nevada, who dislocated a knee cap while jumping from an electric car Tuesday, is resting comfortably. The injury is more severe than was at first believed. His physicians informed him to-day that a month would elapse before his recovery, and that during that time he must not leave his bed.

ORIENTAL NEWS.

The Chinese Ambassador to the Czar of St. Petersburg Shot.

CHOLERA RAGING IN JAPAN.

A High Chinese Official Proclaims that Foreigners Kidnap Children and Must be Punished—The Political Crisis in Corea.

San Francisco, Aug. 1.—A curious incident, hitherto regarded with complete incredulity by the public has been established in connection with Wang Chi-Tsuen, special Chinese ambassador to the court of St. Petersburg. Wang's nominal mission was to offer his sovereign's congratulations to the Czar, on the occasion of the latter's accession, but he also settled the Pamir question. On this way back to China, he called at Saigon, and was shot at and hit by a Frenchman in that colony. A rumor of the affair got abroad, but was not believed. Upon Wang's arrival in Shanghai, however, the fact was very fully confirmed by the condition of his arm, from which the bullet had not yet been extracted, and considerable inflammation had supervened. The motives of the extraordinary crime and the circumstances under which it was committed remain a mystery.

The missionaries in Cheng Tu, where wholesale destruction of their property by mobs took place on the 28th and 29th of May, have obtained copies of placards and proclamations circulated among the people immediately before and after, as well as during the riots. Some of these documents are anonymous, but one is actually signed by a Taotai named Chou. It runs as follows: "At the present time we have obtained clear proof that foreigners deceive and kidnap small children. Your soldiers and people must not be disturbed and excited. When the cases are brought before us we certainly will not be lenient with them."

Such an incendiary slander of foreigners has never before been published by an official of high rank in China.

The political crisis in Korea proves to be of a less serious character than was at first supposed. Pak Yong-Ho, minister of home affairs, who being suspected of a plot against the life of the Queen, had to fly from Soul and seek refuge in Japan, is declared to have been guiltless of any such designs.

The most generally accepted hypothesis is that a Japanese youth gave to some Korean officials a highly exaggerated, if not an altogether false account of Pak's designs and credence being attached to this story when it reached the court, an order was at once issued for Pak's arrest. The incriminated minister's escape was remarkable. On the very evening when news of his alleged treason had thrown the palace into confusion and arrangements for his arrest were in progress, he was dining at the residence of Mr. Saito Shuichiro, advisor to the cabinet. Going home at 10 o'clock, he retired to rest, entirely unconscious of the danger that was impending. But he had not been long in bed when news of the commotion reached him. He at once decided to fly, and hastily arranging his domestic affairs, clothed himself in a European costume and left the city on horseback, accompanied by two other officials. He was just in time, for soon after his departure, his house was surrounded by a strong force of constables, who then proceeded to the Japanese legation and inquired if Pak had not come there. While these fruitless inquiries were proceeding in the capital, Pak and his friends rode to Yong San, where they immediately took a steam launch to Ninsen. At the latter place a number of Korean constables were waiting on the wharf when the steam launch carrying Pak slowly entered the port. The fugitives had no alternative but to face the danger. They boldly landed under the very noses of the police, who apparently did not suspect what was happening. Making their way to the Japanese settlement, Pak obtained a Japanese naval uniform and his friends donned one a coolie's garb, the other a suit of white duck. They got on board a Japanese steamer, and were carried safely to Japan. The Koreans have circulated a rumor to the effect that a detachment of Japanese soldiers covered Pak's flight, but there is no truth in the allegation.

CHOLERA-STRICKEN JAPAN.

The Disease Increases in Violence and Has Many Victims.

San Francisco, Aug. 1. Correspondence of the United Press, per steamer China:

Tokio, July 20. Cholera continues to rend Japan. Returns now show that 27 places are infected. Up to the 17th of July the total number of cases had been 7,305, of which 4,376 had proven fatal, a death rate of 60 per cent. Thus, there can be no doubt that the type is very virulent, and in view of that fact the success attained up to the present in preventing the spread of the epidemic and curbing its ravages reflect high credit on the sanitary provisions of the Japanese authorities.

AFFAIRS IN HAWAII.

Congressman Hilborn Says that the Islands are not Ready for Annexation.

San Francisco, Aug. 1.—Congressman-elect Samuel G. Hilborn has returned from a five weeks' trip to the Sandwich Islands, where he went to enjoy a rest and incidentally study the various questions that have racked the government from end to end within the last two years.

"I was very much surprised," said the Congressman to a Call representative, "when a San Francisco paper published what purported to be a statement made by me while at the banquet in Honolulu. Among other things it stated that I had declared myself in favor of annexation, and that it was my intention immediately upon the convening of Congress in December to introduce a bill for the annexation of the Sandwich Islands to the United States.

"In regard to annexation I made no such statement, do not believe in annexation at the present time, and it is not likely that I ever will. The situation at present is one of grave difficulty, and the population is in no condition, nor is it the proper material to make a state of. There are the natives, Chinese, Japanese, Portuguese, and but a smattering of the Anglo-Saxon races. Under these conditions I would never advocate annexation, and I believe it would be a fatal mistake to bring about such a result. I talked with all classes of people, royalists, constitutional followers and those who are indifferent, and I found that the present government was built on too small a pedestal. There is in the islands a population of 100,000 people and out of that number less than 10,000 participated in the creation of the present government.

"When Congress convenes in December next I will not make any move to bring about annexation, nor will I take a single step in the direction of annexation unless it comes up in the course of regular business. In that event, I will be fully equipped with all the information necessary to act with judgment and impartiality. Not a stone was left unturned by myself to learn all sides of the questions and at the present time I am satisfied that before long the Queen will return to the throne and conduct the monarchy which was a failure as a State."

ANOTHER TALKING MATCH.

Silver Question to be Discussed by A. J. Warner and R. J. Horr.

Toledo, O., Aug. 1.—Arrangements were made to-day whereby Hon. A. J. Warner, president of the National Bimetallic league, and Hon. R. G. Horr of Michigan will discuss the silver question at Lakeside, O., on Aug. 7. There will be 20,000 people present to hear the debate.

OHIO POPULISTS' PLATFORM.

They Favor Abolition of National Banks, Endorse Coxey's Good Roads Scheme.

Columbus, O., Aug. 1.—The State Populist convention fell into a dispute at the very beginning this morning. Chairman Hugo Preyor of Cleveland attempted to continue the old central committee of last year for another year. This was fiercely opposed and brought the statement from Preyer that a scheme was on to get control of the party and sell it out. After a long discussion the matter was laid aside for decision later on. The convention then selected the usual committees and took a recess to 2:30 p. m.

After recess the delegates appeared in better humor and the old committee was retained with a few necessary changes.

At midnight the committee on resolutions agreed upon a platform. It endorses Coxey's good roads and non-interest bond plank, favors the abolishment of national banks; asks a law making all contracts providing for payments in gold illegal; favors per diem pensions; demands the unlimited coinage of silver at the legal ratio regardless of the policy of any other nation; and the issuance at once of sufficient greenbacks to make the once of currency equal to $50 per capita.

THE TROUBLE IN OMAHA.

A. P. A. Leaders Deny that They are Concerned in the Controversy.

Omaha, Aug. 1.—Reports sent out from this city regarding the anticipated trouble over the installing of new boards of police and fire commissioners in compliance with a new law which went into effect to-day, have been greatly exaggerated. There has been no disturbance of any kind and the action of Gov. Holcomb to-day in allowing himself the 30 days provided for by law in which to appoint the new boards, has settled at least for the present all prospects of a collision unless the attorney general and the public land commissioner take it upon themselves to name the boards which they say they will do to-morrow.

The law ending the existence of the present boards of police and fire commissioners went into effect to-day. Under the new law which is said to have been passed by A. P. A. influence, a new board is to be appointed, and it is expected that the complete reorganization of both departments will follow. The boards are to be appointed by the Governor, the attorney general and the public land commissioner. The latter two went to Lincoln this morning for the purpose of conferring with Gov. Holcomb regarding the appointment of the new boards. The Governor, however, refused to confer with the two officials in the appointments on the ground that 30 days were permitted by law in which to make this choice. After the conference Attorney General Churchill and Commissioner Russell said they would meet to-morrow and appoint the boards.

The feeling in the city between the two factions is very bitter, although the A. P. A. leaders say they are not involved in the discussion, and indignantly deny the reports of the organization of an A. P. A. army. They believe, however, that the acts of the Governor and the mayor will greatly increase their strength this fall. The two minority members of the old board have gone out of office and say they are obeying the law, but the others are barricading their offices and refuse to give them up until absolutely forced to do so.

Mayor Bemis this morning issued a riot proclamation calling upon the citizens to desist from any demonstration liable to bring about a breach of the peace, and instructing the chief of police to disperse all gatherings upon the streets. The proclamation caused some indignation among the citizens, who thought it unnecessary. Interests in the matter rests for a day, but it is thought by many that the attorney general and public land commissioner will not name the boards without the concurrence of Gov. Holcomb.

A Colored Murderer Hung.

Live Oak, Fla., Aug. 1. Geo. Mitchell, colored, was hanged here to-day for complicity in the murder and robbery of Alfred Ryberg, a white man. Mitchell protested his innocence.

THE NELLIE V.

The Latest Name Added to the List of Shippers.

$20,000 RUBIE BOND PAID.

But the Ore on the Lafayette was not —Work on W. S. Stratton's Bull Hill Properties Suspended—Good Strike on the Claude.

Cripple Creek, Aug. 1.—Sam Dyer has about five tons of ore ready for shipment on the Nellie V., which is located on Squaw mountain. The shaft on this claim is down 35 feet, and all the assays made on the vein have shown 10 ounces in gold or better to the ton. There are several small pay streaks in the vein, and on this ore the assays have been made. They now show signs of coming together and it is thought they will have joined when 75 feet is reached. Some of the assays have shown as high as 50 ounces to the ton. No shipment will be made until 10 tons of ore have been accumulated.

The bond on the Ruble amounting to $20,000, was paid to-day, but the one on the La Fayette, which also was for $20,000, was not paid. All of the miners have been laid off for the time being, and a general clean-up is taking place. The shaft will be re-timbered and it is said that operations will be resumed in the near future. The reason of the bond on the La Fayette not being paid is not understood as the Ruble shaft is within 10 feet of the north end line of this property and the claim must contain several hundred feet of the vein.

Col. B. F. Montgomery and son, W. S. Montgomery, sold their claim, the Luck, to-day to Mr. F. L. Martin of Colorado Springs, for $6,000. The claim is situated on Bull hill south of the Specimen, and is a fractional one. There were several adverses against the property, but Mr. Martin has cleared most of these up, and has a good sized piece of ground left.

A good strike has been made on the Claude, on the northwest slope of Gold hill. At a depth of 23 feet the ore chute was encountered. The pay streak is three feet wide, and runs $28 to the ton. The vein is an extension of that opened up on the Half Moon. The claim belongs to the Brother Johnithan company.

All work on Mr. Stratton's properties on Bull hill was temporarily suspended to-day. The various properties have been worked steadily for the past six months, but it has all been towards development and no attempt has been made to ship outside of what ore was taken out in sinking. The claims include the John A. Logan, Brooklyn, American Eagles and Lottie Gibson. There is ore in all of the properties, and a thorough examination will be made of them and a system of development decided upon. Work on these properties will probably be started again in two or three weeks.

There was a rumor on the streets here to-night that the Portland properties had been sold for $4,000,000. It is only a rumor, however, and no credence is given to the report.

Visitors in Camp.

Special to The Gazette:

Cripple Creek, Aug. 1. Cripple Creek camp is just beginning to fully enjoy the benefit of the great travel to Colorado this summer. The towns are full of strangers who throng the hotels. They are not all investors but sight-seers. Thousands of the teachers have taken advantage of this opportunity to see a great mining camp, in fact the greatest in the world. They will have more to tell their pupils after such a visit than all else in the west. It is an education to many people to visit such a camp as this. Many only run up for a day from Colorado Springs but others more wise come for a visit and for investigation. They are greatly pleased with the accommodations offered and especially that they do not have to pay enormous prices.

Midland Terminal v. Victor.

A suit was filed yesterday in the District court entitled the Midland Terminal company vs. the Town of Victor. Plaintiff sets up that in the year 1894 the trustees of the town of Victor adopted resolutions stating that it would be best for the Midland Terminal road to enter the town from a switch-back from the main line. A franchise was granted the road by which it was to be permitted to lay tracks on Granite avenue between Third and Fifth streets. They have secured a permit from a majority of the property holders along those streets and have expended $20,000 in the work. They state that now the citizens are attempting to keep them from laying the track and threaten to tear it up, etc., that they are under constant expense on account of the delay in the work. They ask that a temporary injunction be made restraining the town from interfering and they be allowed to complete the work and that upon a proper hearing the injunction be made permanent. They also ask for the costs of the suit. The papers were served on the mayor of Victor yesterday.

Voluntary Liquidation.

Yesterday the Colorado City State bank went into voluntary liquidation. It has transferred all its deposits to the El Paso bank of this city and they will be paid on demand. The bank was started some three years ago and has done a fair business. Mr. J. Myers Smith has been the cashier and manager and it had on its board of directors some of the most solid men in the county, but the business has not been paying very heavy of late and it was decided to close up. Its affairs are in good shape. This leaves Colorado City without a bank, but as the two towns are so rapidly becoming one that is a matter of little moment.

Attorney Capps Goes to Little Rock.

Chicago, Aug. 1.—Attorney William Capps of Fort Worth, Texas, who is here in the interest of the heirs of the Williams sisters, left to-day for Little Rock. He goes with a letter from State's Attorney Kern of Cook county authorizing him to represent Kern in the negotiations concerning Caldwell, alias Hatch, alias Allen, now in the Little Rock penitentiary. At best the Chicago authorities don't believe Allen, alias Hatch, can give information that will prove murder and they say his statements are contradictory and that the evidence of his having had absolute knowledge of murders committed by Holmes, is decidedly weak. Attorney Capps has convinced them, however, that there is proof of the identity of the prisoner as A. E. Allen, alias A. E. Bond, alias Mascot.

National Circuit Races.

Wauseon, O., Aug. 1.—Twelve thousand people turned out to witness the annual race meet under the auspices of the national circuit. The day was clear and fine, but a strong wind blowing down the stretch made fast time impossible. An accident occurred to mar the day's pleasure, but fortunately not of a serious character. During the first race, a section of the grand stand collapsed, dumping 50 people to the ground, but none of them were hurt. Summaries:

Half mile open, class A—Barnard Oldfield won; Ed McKeon, 2d; W. C. Emmick, 3d. Time, 1:11 2-5.

Half mile open, class B—Ray McDonald, New York, won; Otto Zieglar, San Jose, 2d; Frank E. Rigby, Toledo, 3d. Time, 1:19 1-5.

One mile—O. L. Bralley won; Fred J. Voight, 2d; Clyde Markley, 3d. Time, 2:47 1-5.

One mile handicap, class B—C. M. Murphy, Brooklyn, won; F. J. Titus, New York, 2d; E. H. Kiser, Dayton, 3d; L. C. Johnson, Cleveland, 4th. Time, 2:13 1-5.

One mile open, class A—Bernard Oldfield, Toledo, won; W. J. Klinger, Greenville, O., 2d; P. W. Klinger, Greenville, O., 3d. Time, 2:35 1-5.

One mile, 2:15 class—H. H. Maddock, Asbury Park, won; E. H. Kiser, Dayton, 2d; W. F. Sims, Washington, 3d. Time, 2:45 1-5.

Two mile handicap, class A—Bernard Oldfield, won; W. C. Emmick, Collingwood, O., 2d; Mike Hochstetter, Toledo, 3d; C. O. Taskey, Toledo, 4th. Time, 5:07 2-5.

One mile open, class B F. J. Titus, New York, won; C. M. Murphy, Brooklyn, 2d; E. C. Bald, Buffalo, 3d; Otto Ziegler, San Jose, 4th. Time, 2:10 2-5.

A FIERCE CUBAN BATTLE.

Insurgents Capture a Spanish Lieutenant Colonel and Other Officers.

Santiago de Cuba, July 23 via Key West, Fla., Aug. 1.—Excitement here about affairs in Bayamo does not diminish. The people are all anxious for news from there. News, however, is very difficult to obtain as the government is cautious and besides that communication between Manzanillo and Bayamo is almost impossible at present, as the insurgents are very numerous around there, and do not allow anyone to pass. Of seven messengers that the Spaniards sent from the first-mentioned city to the latter, five were caught and hanged by the rebels.

Of course it is known that something very serious is going on. Marshal Martinez Campos is unable to leave Bayamo, and is, morally speaking, a prisoner of the insurgents. The government has sent about 10,000 soldiers to Bayamo, having taken troops from here, Santa Cruz, Holguin, Gibara, Cienfuegos and Manzanillo, but it is said that the rebels do not allow them to reach Bayamo. According to news received here the battle with Martinez Campos on his way to Bayamo was a terrible one, the Spaniards receiving a severe whipping, the insurgents taking as prisoners a lieutenant colonel, a commander, two captains and two lieutenants. The Spaniards entered Bayamo in such haste that they left great numbers of wounded soldiers in the field.

These were taken care of by Maceo and his people, Maceo ordering his men to kill chickens to make broth, he himself assisting in giving the broth.

The insurgents have had three battles since then with the soldiers sent to Bayamo, but up to this hour no particulars have been learned here.

The Damage by the Flood at Socorro.

Socorro, N. M., Aug. 1.—The excitement attendant upon the flood is over. The list of dead is eight, six of whom are the Duran family and the other two are children that were rescued from the flood and died yesterday. The damage to the city is 50 buildings washed away and contents destroyed; about 100 buildings more or less damaged, and a large portion of the contents damaged and destroyed. With these losses must be added the total destruction of gardens and vineyards, and these losses fall upon the poorest people. The Magdalena branch of the Santa Fe is washed away for about five miles and their loss will run into the thousands.

The water washed away the main track just below the depot yards and covered the track in the yards about four inches deep. The lower part of Manzanares avenue is a total wreck, bridges and sidewalks being washed away. The water covered the whole valley from the vicinity of the Windsor hotel to the depot and for several miles above and below the city. The arroya that did the damage, comes into the city at the southwest corner of the mountains on the road to Magdelena. Just as it strikes the city it divides into two channels, one going down Spring street to the river bottom and the other to the west, emptying to the north of the city and mingling its waters with the one coming down Spring street. The flood came in two big waves, one filling the arroya over bank full and the other pouring out over every street in the city. Had the storm come at night hundreds would have perished.

Will Make no Concessions.

New York, Aug. 1.—Both the tailors and the contractors engaged in the great strike continue to state their determination of making no concessions. The tailors say the strike will be over in a week. The strikers say that the large number of important contractors who have already signed will force the rest to sign within the next few days.

In the police court yesterday the drunken hobos who had the fight near the viaduct were fined. Three were fined $25 and costs and the other $50 and costs, and they will work it out on the streets. The fellow who was pounded with a rock was able to sit up and smoke cigarettes yesterday.

A special car brought in a party of Rock Island officials from the east yesterday. Among them were W. L. Allen, assistant general manager; A. J. Hitt, assistant superintendent; C. F. Wilson, general superintendent of motive power, and H. Monkhouse, assistant general manager of motive power.

Rio Grande trains were delayed last evening by washouts below Pueblo. A water spout came down Hard Scrabble creek and carried away a bridge and part of the track. Trains will be running regularly to-day.

MANITOU NOTES.

Mrs. M. Freeman of Spr[illegible], Texas, is stopping at the Barker. She is accompanied by her son.

Mr. and Mrs. T. Hurley of Kansas City are located at the Barker, where they will remain all summer.

Mrs. J. W. Parker and family and Mrs. Merrill and family of Taylor, Tex., are among the late arrivals at the Barker.

A large party went from Manitou to Crystal Mountain Falls yesterday. They went in conveyances furnished by Walters Manitou livery.

A party of 15 went from the Mansions to Cheyenne canon yesterday morning. They took their lunch and made a day of it. They report a nice time.

The regular weekly hop will occur at the Barker this evening. The hop promises to be a dressy affair. The young people of Colorado Springs are invited to attend. Music by the Harris orchestra.

Mrs. George Trumble, Mrs. R. I. Carey and Mrs. Dr. Mintz issued invitations a few days ago for a progressive euchre party that took place last night. A number of Colorado Springs people were present and a most enjoyable evening was spent. About 10 tables played euchre.

A beautiful hop was the one at the Cliff last night. The evening was delightfully cool and everything went off smoothly. One of the largest crowds that has gathered at the Cliff this year was there, and all joined in the festivities with true earnestness. The Harris orchestra, as usual, played a beautiful programme, and added to the charm of the hop. Tuesday has always been a favorite in Manitou, and it will continue to be so.

The rain last night did not prohibit the guests at the Norris house from enjoying the evening. The Norris guests are a jolly crowd, and it would take more than a rain storm to spoil an evening for them. Yesterday afternoon, when the clouds were beginning to settle upon Pike's Peak several young ladies talked of a euchre party, and, as is usually the case at the Norris house, no sooner had the party been spoken of than work was commenced. About eight tables played and several handsome prizes were awarded the winners.

EVER TRIED IT?
We refer to the new fast train to Denver over the Gulf road. Leaves Colorado Springs 8:10 every morning, and leaves exactly on time. No waiting for a train from some other point. For this reason it is by far the most satisfactory morning train from Colorado Springs to Denver; due at Denver 10:25, and arrives at Denver at 10:25. Splendid track; modern equipment; best view of the mountains. Depot on West Huerfano street, immediately on Rapid Transit line to and from Manitou. City office No. 14 Pike's Peak avenue.
E. K. CARNES, General Agent.

Rio Grande excursion, to Glenwood Springs, July 29, only $10; two daily trains.

UTE PASS EXCURSIONS.
The Colorado Midland continues to make special one and ten day rates to these popular resorts. Four trains each wa daily.

ROCK ISLAND DENVER FLYER.
Is the cleanest, neatest, fastest train to Denver. It leaves Colorado Springs every day at exactly 4:45 p. m. and reaches Denver at 7 p. m. No delays. Always on time.

Quick time, splendid service, Colorado Kansas City, St. Louis, and New York, via the Missouri Pacific route.

VICTOR AND RETURN, $3.00.
Three dollars, round trip, to Victor via the Colorado Midland, on Sundays.

"AROUND THE LOOP."
Do not fail to join the excursion around the loop, Saturday, August 3, over the Gulf road. There is no "one day excursion" in the mountain that can compare with it. Round trip $3.50. Call at 14 Pike's Peak avenue.

A BIG PLATFORM.

According to the Literary Digest there is considerable discussion nowadays among Populist and Prohibition papers about a political union of "reform forces," meaning thereby those political forces that have cut loose from the two major parties and are seeking success for their issues through new party organization.

A national conference looking to such a union was recently held at Prohibition Park, Staten Island. After a five-days' session and a free interchange of views on many political and economic questions now before the country, a committee of resolutions, composed about equally of representative Populists and Prohibitionists, with a sprinkling of Single Taxers, State Socialists, and Direct Legislationists, reported a platform which the delegates adopted almost unanimously. It is as follows.

"As a basis of a union of reform forces.

"1. Direct legislation, the initiative and the referendum in the national, state, and local matters; the imperative mandate and proportional representation.

"2. When any branch of legitimate business becomes a monopoly in the hands of a few against the interests of the many, that industry should be taken possession of, on just terms, by the municipality, the State or the nation, and administered by the people.

"3. The election of President and Vice President, and United States senators, by direct vote of the people, and also of all civil officers as far as practicable.

"4. Equal suffrage without distinction of sex.

"5. As the land is the rightful heritage of the people, no tenure should hold without use and occupancy.

"6. Prohibition of the liquor traffic for beverage purposes, and governmental control of the sale for medicinal, scientific, and mechanical uses.

"7. All money—paper, gold, and silver—should be issued by the national government only, and made legal tender for all payments, public or private, on future contracts, and in amount adequate to the demands of business.

"8. The free and unlimited coinage of silver and gold at the ratio of 16 to 1."

Now that is a platform as is a platform. Nothing small or timid about that.

To be sure, we miss a few things that might have been put in such as the inevitability of bloomers, the suppression of tobacco, the abolition of gambling, and the necessity of a law to prevent swearing or impure conversation and thinking; but on the whole the platform must be fairly satisfactory even to an all-round "reformer." We are rather surprised to see, by the tone of such representatives of the Reform Press as come to the office, that it is not whooped up as enthusiastically as it might be. Some of the single-taxers don't like the Prohibition plank, and some of the socialists don't like the [illegible] plank, and some of the Populists think the Omaha platform is good enough for anybody, and some of the Prohibitionists doubt the wisdom of attempting to get so many other things at the same time with prohibition; so that there is nothing like that unanimity of opinion among the reformers which is certainly desirable if they are going to make a new political party with this exhibit for a platform and sweep the country next year. It is only fair, however, to say that there are some of the reform papers which are perfectly willing to swallow, not only this, but much more.

The Voice puts forward the most remarkable view of it, explaining that the adoption of the platform only commits the new Reform party to sustain, or uphold or advocate these doctrines, not to enforce them, and put them into practical application. In short, that the new party can be for the platform, but agin its enforcement. That is a very convenient view, and one which is not original with the Voice; but it is rather a new idea for a reform paper to take, so far as our observation extends. [illegible] The Voice always has been what H. Greeley called "an amoosin' little cuss."

But just look at the platform again. Do you appreciate the size of it? The people would not have any time for private business, if that should be carried out. It would take everybody's whole time, sixteen hours of the day and twenty-four on Sunday's, to do all the voting that would be necessary, to see that nobody else infringed any of the new laws, and to discuss the questions which would be before The People all the time for decision by their omnipotent votes. Oh, it's a dandy, that platform is!

It will be interesting to find out, after the Mora indemnity has been paid, whether the administration got it as a price for the non-recognition of the insurgent Cubans. We are not likely to be able to tell much before Congress meets, although something may be guessed from the behavior of the administration between this time and December. But we imagine that a resolution will be one of the first things brought up in the House of Representatives when it meets. For ourselves, we can see no good reason for delaying that recognition, provided the insurgents have by that time a [illegible] and are able to maintain themselves in the field then as well as they have done up to the present time. They have beaten General Campos in a pitched battle at least. It seems that they have and they have certainly more than held their own since he went to the island with big promises to put an end immediately to the uprising. Certainly the American people will protest vigorously if it shall turn out that the administration has given any assurance to Spain that it will aid any further in keeping the insurgents from establishing their government.

The Maryland Democracy has made a curious deliverance. As is so often the case, words and deeds do not go well together. The administration candidate for Governor could hardly get enough votes to be put in the "scattering" column, and Gorman's machine put in the men it pleased; but in order to sugar the bitter pill, the platform went the limit in laudation of the administration, and especially for its great fight against the "pernicious financial heresy" of free coinage at 16 to 1. That it would endorse the Gorman tariff was a matter to be expected. The description of that law in the platform is one of the worst cases of misfit that has ever appeared anywhere. It will bring a smile even to the faces of Democrats.

The Democratic Senators from Louisiana have given Mr. Carlisle some pretty plain talk as to the effects of cutting off the sugar bounty which was voted by the last Congress. They have informed him that unless Bowler is suppressed immediately, the State is sure to go Republican this fall, and next year also. Louisiana has only 8 electoral votes, to be sure, but we think even Mr. Carlisle would hesitate before throwing that many away. He will not have any to spare.

Now it is alleged that William C. Whitney is to be the residuary legatee. Well, hardly. After that outburst of patriotism on Mr. Whitney's part in regard to Cuba, and the Monroe doctrine generally, it is not just the most probable thing in the world. And besides, Whitney got the last nomination for Cleveland, and Cleveland is not likely to forgive him for that.

The stock exchanges of this city are breaking records as fast as the bicycle-riders do. For the last month a summer month usually considered a dull one, the record of shares sold on the regular calls at the two exchanges foots up to the immense total of 6,300,000. What this month's record will be, no one can venture to predict.

Speaking of the residuary legatees, we think that when Mr. Cleveland gets through with the administration apple, "there aint goin' to be no core."

The question is not whether Cleveland will get a third term; it is whether he will get a fourth nomination.

We can assure visitors to the Summer school and others that it never rains here in September.

The World's Gold Production

The reports which are reaching the Mint Bureau from time to time confirm the estimate made several weeks ago that the production of gold throughout the world for the present calendar year will equal $200,000,000 in value. An increase of only $19,000,000 is required over the product of 1894 in order to afford this aggregate and material increases are already disclosed by the reports from various parts of the United States, from Australia and from South Africa. Official figures for the first six months of the calendar year will probably be received soon by the Mint Director from the various mining sections of the United States, and in the meantime the increase can be judged only by the large deposits at the mints and assay offices and by scattering reports. A deposit was recently made at the mint at Helena, Mont., of 730 ounces of gold from Alaska. This deposit represents about $14,000, which is less than a tenth of the gold product of the territory, but the mint at San Francisco usually receives the Alaska product and there are already indications of a considerable improvement over the record of 1894. The Cripple Creek region of Colorado is already averaging a production of about $500,000 per month, where the product has until recently been only $250,000 to $300,000. This increase alone would represent a minimum gain for the year of $1,000,000. The Leadville district is also increasing its output, and the resumption of hydraulic mining in California within legal limits is likely to yield an increased gold product for that State. The entire product of the United States for 1894 was returned as $39,500,000 and the product for 1895 will probably not be less than $45,000,000.

One of the deceptive elements in the early reports regarding the gold product of the United States has been the mixing of the Mexican product with that of this country. The Mint Bureau of Mexico returned a production for 1894 of less than $2,000,000, but careful investigation of American refineries showed that $2,700,000 in gold had been extracted from Mexican ores, and that $1,000,000 had been imported into the United States in Mexican bullion. These sums were in addition to a coinage during the year of $575,000, and the declared exports to other countries than the United States. The fact that the Mexican government imposes an export duty upon gold probably leads to the smuggling of much of the ore into this country, where it is refined. The Colorado people are claiming that they will show a gold production this year of $17,000,000. The official figures for 1894 were $9,491,514, so that if their estimate is verified and the production of other States remains stationary the product of the United States will be not less than $47,000,000. These figures are received with a grain of allowance at the Mint Bureau, although it is admitted that Colorado will show a large gain over the production of 1894. California and Montana are also fighting for an increase, and there is a disposition among some of the energetic business men in these States to make their gold production a substitute for their losses on silver mining through the decline in the price of silver.

Australia is expected to show an increased production during the present year and the figures at hand justify the expectation. Australia took the lead of all producing countries in 1893 with a product of $41,700,000, and the race is likely to be a close one between Australia and the United States this year. Both of them may be surpassed by Africa, which continues to afford glowing reports from the mining engineers and to increase her production month by month. The May product of the Witwatersrand region alone was 197,000 ounces, which represents a value of nearly $4,000,000. A monthly average of this amount for the year would afford an aggregate of $48,000,000, without counting the other African mining regions, against an aggregate African production in 1894 of $40,000,000. The figures for the earlier months of the year were below this average but the tendency has been so steadily towards an increase month by month that the production of the remainder of the year will probably supply the deficiencies of the earlier months. Few reports of diminished production have been received from any quarter of the world and some gains are looked for in the South American countries as they come to be explored and their mineral resources to be developed. The increased production of the three great producing countries of the United States, Australia and South Africa will probably be sufficient to carry the gold product of 1895 to $200,000,000, and gains in other countries may rise the limit even beyond this amount.

Iowa-Missouri Boundary Line Dispute.

Des Moines, Ia., Aug. 1. Gov. Jackson returned to-day from his conference with Gov. Stone of Missouri, over the boundary dispute between the two States. They have agreed that a suit shall be brought by the State of Missouri against the State of Iowa, in the United States Court, demanding that the court name a commission to locate the line where it is in dispute. The result will be the appointment of a commission to make the survey of the disputed section. The matter will go before the court in October and inside of a year the matter will be settled.

Standard Wagon Company Fails.

Cincinnati, Aug. 1.—The Standard Wagon company and the Davis company assigned this afternoon to Edward Ritchie without preferences. The Standard is reported as having $300,000 in assets and $100,000 in liabilities. The Davis company has $150,000, but no statement of the liabilities is given.

8:00 Lecture: "The Evolution of Industrial Civilization," Dr. Ely, Coburn chapel.

Dr. James.

Dr. James arrived yesterday morning, and was driven at once to Mrs. E. C. Goddard's, whose guest he will be during his stay in the city. He will give the first lecture of his course at 5 o'clock this afternoon in the Coburn chapel. The subject of his lecture is "Man as a Relative Organism."

Professor Lounsbury.

The subject of Prof. Lounsbury's lecture this afternoon is, "Shakespeare in Literary History." The lecture begins promptly at 2:05.

Dr. Ely To-Night.

At 8 o'clock this evening in the Coburn library chapel Dr. Ely will deliver his second public lecture. The subject is: "The Evolution of Industrial Civilization." By most painstaking research Dr. Ely has won the right to speak with authority upon this subject. This lecture closes Dr. Ely's work with the school for this season. The amount of work done has been large 32 lectures in all and the excellent quality of it has been heartily appreciated by a large class.

Royal Gorge To-morrow.

The member of the Summer School who does not go on the excursion to the excursion to the Royal Gorge to-morrow will be lonely. So far as heard from nearly every one is going. Prof. Cannon, the instructor in geology, accompanies the excursion.

Art Lecture.

At 10:15 this morning in the High School drawing room, Prof. Read will lecture on "What is a Picture?"

Child Study.

Prof. Hancock arrived yesterday morning, and will begin his course on "Child Study" some time, to-day. From the questions asked of the management regarding this course, it may be supposed that the course will be very popular. A meeting of those interested in the subject is called at 8:15 this morning in the High School study for the purpose of ascertaining the best hour for giving these lectures. Let every one interested be present if possible.

SUMMER SCHOOL NOTES.

All interested in Supt. Hancock's course in "Child Study" meet in the High School study to decide the time for giving the lectures.

The rehearsal for the Festival Chorus will be held in the Auditorium to-night, instead of at the Christian church.

Prof. Wilkinson's work increases in interest. The number who take part in the discussions grows, and the questions raised often occasion a spirited debate. Dr Wilkinson is the guest of Mr. J. J. Hagerman for the last two weeks of the school.

On account of an engagement Prof. O'Shea did not meet his class last evening or a round table. The first meeting will take place from 7 to 8 this evening in room 4, Palmer hall.

Prof. Plank will not lecture this evening on account of the lecture by Dr. Ely. The last illustrated lecture on "Napoleon" will be given by Prof. Plank in the High School Auditorium on Saturday evening.

Prof. Plank's illustrated lecture on "Napoleon" last night had a good audience again. The pictures were excellent, which means that the lecture was all that could be asked. For Prof. Plank devotes his energies to making the pictures do the talking, and most admirably he succeeds in his effort. His last lecture on Saturday evening ought to fill the auditorium.

The afternoon music class, which has heretofore met in Coburn chapel at 5:05, will hereafter meet in room 2 Palmer hall.

Royal Gorge Saturday, $3.

Miss Mae Estelle Acton.

Miss Acton, the concert and operatic singer, is a resident of Chicago and a teacher of voice culture and artistic singing, of the Italian school, in the Chicago National College of Music, of which Dr. H. S. Perkins, director of the music department of the present session of the Colorado Summer School, is the president. Miss Acton is with us as the soprano soloist of the school and the two festival concerts to be given here the evenings of August 8th and 9th. It is a credit, both to the country and the artist, that Miss Acton pursued her studies this side of the Atlantic—in Boston and New York. She has sung with marked success in all of the principal cities of the east, on the operatic and concert stage. Her singing is characterized by purity of tone-quality throughout her very extensive range of voice, perfection of intonation or accuracy of pitch, remarkable flexibility and distinct articulation. We have to thank the Summer School management and congratulate ourselves that Miss Acton was secured for this season. She was heard with great pleasure at the opening exercises and will appear in operatic and other selections in several concerts before the close of the school.

THE MINING EXCHANGE.

Colorado Springs, Aug. 1.—With a total of over 200,000 sales at the one call, business was again very brisk at the Exchange this morning. Eleven stocks were traded in but the general strength was not so prominent as in the past day or so. Specimen came to the front as the heaviest seller with a total of over 30,000 shares. It was very strong and all that changed hands went at 10, the same price being bid for several thousand more but at the close there were none offered at less than 11½. The next heaviest seller was Consolidated with nearly 25,000 shares. This stock started to sell at the top prices of yesterday but declined to 8 after 100 shares had changed hands. The closing sale was of 5000 shares at 7½ but this was palpably forced and the stock is probably in a much better condition than that though it had a depressing effect on the closing quotations, the best bid for it being 7⅝. Bob Lee, which has taken quite a spurt in price in the past two days, had an even 10,000 sales, all of it going at $6.50 per 1000, but it closed weaker than that. Mt. Rosa was again strong at 6 and 6¼ and was fairly active. Pharmacist made an improvement in price and also was fairly active. The price reached 5¾. 6000 shares changed hands at that figure. Union was comparatively quiet after the heavy sales of the past few days. It weakened in price and sold down as low as 23. This was about the middle of the call. At the close it made considerable improvement with the sale of 2000 at 24½ and even better than that was bid before the hammer fell for the last time. Anaconda was very strong at 40 bid. The sales were made at a cent better than this and amounted to 2000 shares. Argentum was weakish which caused a good deal of surprise in the face of the dividend just declared. It sold down as low as 85 though there was none offered at the close at less than 91 but it is very probable that a bid of 88 or 89 would have brought out some more stock. Mollie was without any sales and remained weakish at 85 bid. Portland was another stock without any sales credited to it but in this case there was a good deal of strength, several bids of $1.10 for 500 and 1000 share lots failing to get any stock. The total sales in the listed stocks for the call amounted to 105,600 shares with a value of $5029.

The Denver Pit.

Special to The Gazette.

Denver, Aug. 1.—This was a lively day in the pit and there was plenty of noise during the call. The brokers orders were well spread over the list of stocks but most of the trading was in the cheaper ones, which appear to be on a boom and were certainly in a very bullish condition. Addie C., was the leader in point of numbers and had 35,000 sales at from $4 to $5 per 1000. Aola was another very lively stock with close upon 50,000 sales. The price went up a point, all the sales being made at 1¼. Creede and Cripple Creek was strong at 2¼ but was only a light trader, the market being cramped on this stock. Union Leasing went above 60 once again and sold as high as 61. Argentum-Juniata showed some little improvement with 700 sales around 90 and Union was strong at 23. The total sales for the call amounted to over 100,000 shares which is the best that has been done for some time past.

The Colorado Springs Board of Trade and Mining Exchange.

First Call.

Colorado Springs, Aug. 1.—Trading was again very heavy at the Board of Trade this morning the total sales amounted to over 200,000 shares. A very large amount of business was not connected with any particular stock it being very evenly divided among a good number which is a much more satisfactory state of affairs. Pharmacist was about the most prominent seller with an even 40,000 shares to its credit. The stock brought 5 and 5¼ and the sales were nearly evenly divided between the two prices. Several stocks on the list had over 10,000 sales and many more with a total just under that number. Jack Pot was credited with 11,000 shares and was slumpy at 2¾ and 2⅝. Mt. Rosa had over 13,000 shares and was in big demand at 6¼ and 6¼. Gould had an even 10,000 sale being strong at from 4½ to 4¾. Consolidated also had an even 10,000. It opened strong at 8¼ but declined to 7⅞ before the close. Goldstone was busy on a declining market, starting in at $9.25 per 1000 and selling down as low as $8.50 per 1000. Among the higher-priced stocks Anaconda was prominent with a thousand sales at 40¾, also Portland with 500 at $1.10. Union was inactive and sold down as low as ....

Second Call.

Business was again very bright at the second call though the total sales were not so heavy as in the morning. The lead was taken by Blue Bell, a stock that has been neglected for a long time now. The sales in it amounted to 42,000 shares and of this number a block of 40,000 went in one deal, it bringing 2¼. Mt. Rosa was again a heavy seller and was strong though it lost a point on the morning's quotations and closed at 5¾ bid with plenty of offerings at 5⅞. The sales were made at 5¾ and 6 and amounted to 14,000 shares. Buckhorn, Bob Lee and Consolidated each had over 10,000 sales. Those in Consolidated were only 1000 short of 20,000. A slump in the stock was expected but it never went below 7¾ though there was quite a little of it on the market at that figure at the close of the call. The sales in Bob Lee continued to be made at $6.50 per 1000 though it was offered at less than that at the close. In the higher priced stocks Argentum Juniata was the most prominent and sold all the way from 89 to 90, closing in much better condition than it opened. Portland went up to $1.12 again and was credited with 300 shares. Mollie had 200 and sold at 83 and 84½. The total sales for the day amounted to 355,450 shares.

The Denver Mint.

Special to The Gazette:

Denver, Aug. 1.—Less than 600 ounces of the yellow metal were left at the mint to-day, the bulk of Colorado's increased production still flowing eastward to procure the premium that is being paid by exporting brokers. The various deposits were credited as follows: San Juan, one deposit, 23 ounces; San Miguel, three deposits, 128 ounces; Chaffee, three, 324 ounces; Summit, two, 55 ounces; Boulder, one, 13 ounces; Park, one, 16 ounces. Total, 579 ounces. Value, $9000. The deposits for the past month amounted to 22,000 ounces with a valuation of $513,000.

Two Calls Again.

Owing to the very heavy business that is being transacted at the Exchange the members have decided that it is advisable to have two calls again. The new order of things, or rather the return to the old custom, starts in to-day and attention is drawn to the fact that the first call starts punctually at 10:30 a. m. and the second at 2:30 p. m.

Wm. J. Puckett, assayer in charge of the Denver mint, is of the opinion that the output of gold in this country will soon reach $100,000,000 a year and that of this amount Colorado will produce nearly one-third when work is in full progress in all the camps. This conclusion he reaches by a sort of a comparison of facts and figures in the mineral world which are in his possession. "When that time comes," said he, "that the output reaches the full amount of my prediction the United States will become the financial monarch of the world and may dictate her terms as she will in reference to all the questions which now annoy and perplex."

Over 6,000,000 Shares

The total sales of mining stock made in this city in the past month amounts to 6,437,223, and all these are duly recorded on the books of the Mining Exchange and the Board of Trade.

Of this total over four millions are credited to the Board of Trade, but the greater values are with the Exchange.

Stolen.

Certificate No. 817, for 1000 shares of Union Leasing was stolen in Denver yesterday. Local brokers are warned to be watchful and not to handle this certificate without investigation.

Current News.

Two calls at the Exchange to-day and hereafter. First call at 10:30 a. m., second at 2:30 p. m.

The Lincoln group near Gillett are making preparations to commence shipments and have ordered machinery to facilitate the work of hoisting ore.

The Lincoln Placer company, situated near Gillett, has nearly completed the dam for water storage and contemplate running a flume from Oil creek to obtain water supply.

The E. F. C. Mining and Milling company of Cripple Creek, says an exchange, has made two shippments, and expect to become a regular shipper as soon as they can get machinery in place. Contracts have been let to sink 100 feet.

A bond and lease on the Kismet mine to George H. Bodfish was filed for record yesterday. The bond called for $500 down and $74,500 at the end of the year. It is believed that eastern capital is backing Mr. Bodfish in this enterprise.

In making mention of a bond and lease in the Grass lode belonging to the Buckhorn company, The Gazette stated that the bond and lease was held by Mr. J. W. Miller. It should have been by Messrs. A. Joel Ward et al. Mr. Miller owns a small interest.

Mr. G. O. Pearce states that the progress with his gold filtering plant at the Phillip B. mine on the West Side, is most satisfactory. Three shifts are working day and night, and the water is being run through 26 barrels. He estimates that about $30 worth of gold is being saved per day, and that this can be increased pro rata with the size of the plant.

U. S. vs. Mrs. Jane Stanford.

San Francisco, Aug. 1.—The record in the case of the United States against Mrs. Jane Stanford has been filed in the United States Court of Appeals. Attorney McKissick will endeavor to have a day set aside for the hearing of the case. It will probably be set for early in September.

Russian Civilization.

St. Petersburg, Aug. 1. Six organized bands of robbers armed with Remington rifles have for a long time harrassed the district of Eriwanin trans-Caucasia. This band recently united under the command of a notorious leader, Aadul Herder Khan and attacked and burned a number of isolated farm houses. Finally becoming bolder, the robbers attacked in broad daylight several villages, which they captured and burned. All the men in the villages and all male occupants of the farm houses who were unable to escape were put to death, while the women and children were carried off by the bandits. The police were unable to stop these outrages and a force of 200 Cossacks were sent to punish the robbers. On the night of July 25 the Cossacks encountered the bandits at Nachitschewan. After a sharp fight the bandits, who are now armed with modern magazine rifles, repulsed the Cossacks. Reinforcements to the number of 300 men have been sent to assist the defeated Cossacks, and the troops are now billited throughout the harrassed districts

Railroad Down the White River.

New Castle, Colo., Aug. 1.—Manager J. W. Dean of the White river valley railroad says the amount of money needed for the building of the railroad has been received, and that work will be commenced at once. "We might have had the grading finished by this time, but we wanted enough money to lay the track as the graders went along; we also wanted a good right of way."

It is expected that the road will be built next fall

Big Profits ON Small Investments.
Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful Speculation in Grain, Provisions and Stock.
$10 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation.
originated by us. All successful speculators operate on a regular system.
It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.
It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.
Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.
Write for convincing proofs, also our Manual on successful speculation and our Daily Market Report, full of money making pointers. All free. Our manual explains margin trading fully. Highest references in regard to our standing and success.

THE MARKETS.

New York, Aug 1.—Money on call has been easy at 1@1½ per cent., last loan at 1 and closing offered at 1. Prime mercantile paper 4@4½ per cent. Bar silver 66¼; Mexican dollars 53¼. Sterling exchange is strong with actual business in bankers' bills at $4.89½@4½ for 60 days and $4.90@½ for demand. Posted rates $4.90@4.91; commercial bills $4.88½@4.89.

Government bonds steady, State bonds higher; railroad bonds strong. Silver at the board was dull.

The transactions at the stock exchange to-day aggregated 262,563 shares, of which 52,1000 were Sugar, 26,000 Chicago Gas, 14,300 Rock Island, 14,200 Western Union, and 13,800 Missouri Pacific. It will be seen therefore that the Industrials are once more monopolizing speculative attention. Chicago Gas advanced to 58⅝, a rise of over 4 per cent since Monday but later on a reaction to 57⅛ ensued. The rise in the securities ranged from 2 to 6¼ per cent. The advance brought out long stock and a reduction of ¼ to 2¼ per cent ensued. The railway list was inclined to weakness during the early session on efforts to realize profits and lower prices from London. The decline however was unimportant.

In the afternoon the bulls ascended yesterday bid up by the Grangers and started to purchase in the general list. Rock Island advanced to 80, Burlington to 92, Northwest to $1.02, St. Paul to 72, Western Union to 93⅝, Canada Southern to 55⅝ and Michigan Central to $1.02. Toward the close under realizations the railway list ran off ¼ to 1 per cent, while Cordage guaranteed fell 2⅜ to 85¼.

The market left off steady. The net changes in the railway list as a rule show losses of ¼ to ½ per cent.

Bonds were strong. Sales footed up $1,976,000.

CHICAGO GRAIN.

Chicago, Aug. 1.—The Cincinnati Price Current explained this morning that one reason for the light interior offerings of wheat was the fact that producers were holding for higher prices. Liverpool stocks of wheat increased one million bushels during July, this was another fact that prices had to contend with during the morning. Receipts at Chicago were 50 cars and 201 arrived in the northwest. Cables were quiet and generally steady. Withdrawals from store amounted to 15,400 bushels and 258,413 bushels cleared at the seaside. A report reiterating previous claims that this year's yield of wheat for California would be the smallest in 21 years was received from San Francisco. On this there was improved buying and a firm close, with September 1⅛ higher than yesterday. Closing Liverpools and Continental cables were unchanged to lower. September wheat opened from 69¾ to 69⅝, sold between 68⅜ and 69⅞, closing at 69¾, ⅛ higher than yesterday. Estimated receipts for to-morrow 66 cars.

A steadier tone than the surroundings would indicate should exist prevailed in corn. There was quite a good demand to cover September shorts on the belief that it is possible to manipulate that option. No sign of such action is to be seen, but those who are short are apprehensive and deem it best to be on the safe side. Cables were quiet. Export clearances amounted to 118,602 bushels. The Cincinnati Price Current confirmed the good crop prospects. Whilst the September option exhibited such great strength the more distant futures were scarcely better than steady. September corn opened at 42⅝, sold up to 43¾@⅞, where it closed, 1⅛ higher than yesterday. May closed ⅛@¼ higher than yesterday. Estimated receipts for to-morrow 310 cars.

MUNYON'S SUCCESS.

The Greatest Known in the Annals of Medicine.

Sales of His Remedies Reached a Total of 2864 Bottles in Colo. Springs Alone Since Monday.

What Better Proof of the Efficacy of These Little Pellets Could Any One Desire Than the Above Statement?

From Monday until Tuesday afternoon over 3000 vials of Munyon's Rheumatism Cure were given away free to the public, and although but four days have elapsed since the distribution commenced, many have reported themselves cured, and hundreds, hearing from their friends the wonderful results obtained by the use of one small bottle of these remedies, have become convinced of their value and purchased some of the same from their druggists.

TWENTY THOUSAND DOLLARS spent in advertising could not have created such a demand for any medicine. But the fact that out of 3121 trial bottles given away only four persons have reported no benefit received, and 186 cured or greatly relieved, compels the most skeptical to acknowledge the efficacy of Munyon's new method in treating disease. Remember, this company puts up a cure for every disease just as positive in its action as the Rheumatism remedy, and sold by all druggists for 25 cents.

RHEUMATISM CURED.

Munyon's Rheumatism Cure is guaranteed to cure rheumatism in any part of the body. Acute or muscular rheumatism can be cured in from one to five days. It speedily cures shooting pains, sciatica, lumbago and all rheumatic pains in the back, hips and loins. It seldom fails to give relief after one or two doses, and almost invariably cures before one bottle has been used. Price 25 cents.

STOMACH AND DYSPEPSIA CURE.

Munyon's Stomach and Dyspepsia Cure cures all forms of indigestion and stomach trouble, such as rising of food, distress after eating, shortness of breath and all affections of the heart caused by indigestion, wind on the stomach, bad taste, offensive breath, loss of appetite, faintness or weakness of stomach, coated tongue, heartburn, shooting pains of the stomach, constipation, dizziness, faintness and lack of energy. Price 25 cents.

Munyon's Nerve Cure cures all the symptoms of nervous exhaustion, such as depressed spirits, failure of memory, restless and sleepless nights, pains in the head and dizziness. It cures general debility, stimulates and strengthens the nerves and tones up the whole body. Price 25 cents.

Munyon's Kidney Cure cures pains in the back, loins or groins from kidney disease, dropsy of the feet and limbs, frequent desire to pass water, dark colored and turbid urine, sediment in the urine and diabetes. Price 25 cents.

CATARRH CURE.

Catarrh Positively Cured.—Are you willing to spend 50 cents for a cure that positively cures catarrh by removing the cause of the disease? If so ask your druggist for a 25 cent bottle of Munyon's Catarrh Cure and a 25 cent bottle of Catarrh Tablets. The catarrh cure will eradicate the disease from the system, and the tablets will cleanse and heal the afflicted parts and restore them to a natural and healthful condition.

Munyon's Liver Cure corrects headache, billiousness, jaundice, constipation, and all liver diseases. Price 25 cents.

Munyon's Cold Cure prevents pneumonia and breaks up a cold in a few hours. Price 25 cents.

Munyon's Cough Cure stops cough, night sweats, allays soreness and speedily heals the lungs. Price 25 cents.

Munyon's Female Remedies are a boon to all women. Price 25 cents.

Munyon's Headache Cure stops headache in three minutes. Price 25 cents.

Munyon's Pile Ointment cures all forms of piles. Price 25 cents.

Munyon's Asthma Cure and Herbs are guaranteed to relieve asthma in three minutes and cure in five days. Price 50 cents each.

Munyon's Blood Cure eradicates all impurities from the blood. Price 25 cents; special $1.00.

Munyon's Vitalizer imparts new life, restores lost powers to weak and debilitated men. Price $1.

Munyon's Homeopathic Remedy company, 1505 Arch street, Philadelphia, Pa., put up specifics for nearly every disease, mostly for 25 cents a bottle.

Sold by all Druggists.

Baker & Co., leading prescription druggists, No. 8 South Tejon street, are the agents for Munyon's remedies.

G. O. Taylor Whiskies, bring strength to the invalid.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as Cleo Royal.

LESS THAN HALF RATE.

Denver and return via the Santa Fe on Saturday, third inst., one dollar and seventy-five cents. Tickets will be sold for all trains. A train returning leaves Denver at 11:50, giving a full day there.

TWENTY-SIXTH TRIENNIAL CONCLAVE.

Knights Templar, Boston, Mass., August 26 30.

The Union Pacific has been selected as the official route of the Grand Commandery. Official train will leave Denver at 10 p. m., August 20. Tickets on sale from Colorado August 17 to 20, at one lowest first-class fare for the round trip. Good to September 15, with privilege of extension until October 6. Examine Carefully.

I consider there is only one proper way to advertise that pays, viz: to do it truthfully and candidly; not to misrepresent either through the newspapers or in your store, or allow your employees to do so. How far I have succeeded in adopting this method my crowded store testifies.

A. D. CRAIGUE.

TRUSTEE'S SALE.

Whereas, The Colorado Springs Improvement Company, a corporation created and existing under and by virtue of the laws of the State of Colorado, did on the 12th day of June, A. D. 1889, by its certain deed of trust of that date, which is duly recorded in the office of the Recorder of El Paso County, Colorado, on the 15th day of June, A. D. 1889, in book 74 at page 359, convey to Alvan A. McGovney as trustee, or in case of his failure for any reason to act as such trustee then to the acting County Clerk of said County of El Paso as successor in trust, the following described real estate, situated in said County and State, to-wit: The n ½ of section No. 16 in township No. 14 south, in range No. 66 west of the sixth principal meridian, to secure the payment of its four certain promissory notes bearing even date with said deed of trust for the principal sum of $10,000 each, payable to the order of Edwin J. Eaton on or before five years after their date with interest thereon from June 12th, 1891, at the rate of seven per cent. per annum until paid, payable annually, and

Whereas, It is provided in said deed of trust that in case of default in the payment of said notes or the interest thereon, when the same shall become due and payable, the trustee or in case of his failure for any reason to act then the said successor in trust, upon the request of the legal holder or holders of said notes, should proceed to sell and dispose of the said premises according to the terms and for the uses and purposes in said deed of trust provided, and

Whereas, Default has been made in the payment of the said notes and the interest thereon,

Now, therefore, at the request of the legal holders of said notes and under and by virtue of the authority in me vested by the terms of said deed of trust, I, Alvan A. McGovney, trustee, or in case of my failure for any reason to act as such trustee, then the acting County Clerk of said County of El Paso, as successor in trust, will on the 2nd day of October, 1895, at 12 o'clock m., at the front door of the County Clerk's office, in the County of El Paso, and State of Colorado, sell the above described real estate, with the appurtenances and all the right, title, benefit and equity of redemption of the said The Colorado Springs Improvement Company, its successors and assigns therein, at public auction, for the highest and best price the same will bring in cash, for the purpose of paying said notes, interest and the costs and expenses of executing this trust.

Dated Colorado Springs, Colo., August 1st, 1895.

ALVAN A. McGOVNEY,
Trustee.

F. W. HOWBERT,
Acting County Clerk of El Paso County, Colorado, Successor in Trust.
